

## Product Overview: ProQuest Newsstand

ProQuest Newsstand enables users to search the latest national and regional full-text news from across the United States, as well as important international titles. Institutions may select from international, national, regional, and state bundles or customize their content. Inquire with library staff at your library for information on the newspaper titles available in the institution's subscription. Coverage varies from title to title.

Each issue of every newspaper is indexed thoroughly, so searchers have access to not only top news stories but also detailed information on the arts, sports, business, and popular culture. Even such items as editorials, editorial cartoons, obituaries, and letters to the editor from well known people are indexed.
